- Improved website performance and functionality, contributing to a 25% increase in user engagement and achieved sales targets.

Website & Web Application Sales Consultant | Apex Website & Software Co.,Ltd - Yangon, Myanmar. | May 2018 – Dec 2019

- Worked closely with clients to understand their requirements and deliver solutions.
- Assisted in the development of web applications, focusing on backend and frontend integration.
- Managed IT support and marketing efforts for over 100 company websites, ensuring 100% uptime and enhancing client communication through streamlined processes.

Projects

Railway System | Laravel 10, MySQL, Vue.js

- Developed a full-featured railway system with User and Ticket Inspector portals.
- Built RESTful APIs supporting QR code processing and wallet transactions.

- Implemented user authentication, route/station pages, ticket purchases, and top-up features.
- Designed responsive admin UI using Bootstrap and integrated map data via latitude/longitude.

Inventory Management System | Laravel12, MySQL, Bootstrap

- Created a scalable inventory and warehouse management system supporting multi-location stock control.
- Integrated purchase, sales, return, and due management with real-time inventory updates.
- Structured role-based access control to secure system operations.
- Built reporting modules for inventory, financial, and operational insights.

Overseas Employment Management System | PHP, Laravel 8, MySQL

- Developed a comprehensive system for overseas employment agencies in Myanmar, enabling efficient candidate tracking, job matching, and document processing.
- Implemented candidate profile management, job postings, and automated notifications.

Website Development Projects

- Designed, developed, and maintained over 200 company websites across various industries.
- Ensured high performance, security, and SEO optimization for improved client reach.
